Vancomycin (Vancocin®)	40 mg/kg/day	every 6 hours	125 and 250 mg Cap.	\$296 (125 mg)	\$592 (250 mg)

^{*} Only one brand name product is listed although several manufacturers may market other brand names.

[†] Daily oral dose must be divided according to recommended interval. Maximum daily dose must not exceed adult dose.

[‡] Approximate cost based on price listed in the Liste de médicaments published by the Régie de l'assurance maladie du Québec (RAMQ) (june 2009), excluding pharmacist's service charge and wholesaler's markup. Certains conditions may require treatment courses that are longer or shorter than 10 days.

[§] The 7:1 (BID) formulation of amoxicillin-clavulanate potassium (Clavulin®) is preferred because of its better GI tolerance.

II Price of generic drug.

III Price of brand-name drug.
