

Product name:GY6 ignition coil

Applicable Motor:Haomai125 series

Characteristics:

- 1. Capacitor discharge ignition coil**
- 2. Ignition coil can withstand high pressure and have a good insulation properties**
- 3. Use of iron oxide magnetic materials, energy transfer efficiency**
- 4. Efficient energy transfer,environmental adaptability, Vibration Resistance**

Technical Indexes

item	Indexes
type	Capacitor Discharge
Primary resistance	0.4Ω
Secondary resistance	3.0KΩ
Damping resistor	5KΩ
Voltage transfer ratio	150:1
Insulation resistance	>1000KΩ
Annex tensile strength	>50N
Operating Temperature	-30---85℃
