Nice lot of mercs, this one was mfd 1/75. I have a Westy H39KC-175/DX made on the same exact month/year as yours!

Say NO to bulb bans! The bulb ban IS inline with the principles of communism. Yes, exactly.

Is this one of the lamps that you just got in the mail? It's really nice. From the '70s...the best era yet!

I suspected that was the date but wasn't sure. I'm slowly learning the date codes. That's cool that you have a brother to this one
