

VISTA. ULTIMATE TECHNOLOGY. ULTIMATE PERFORMANCE. ULTIMATE DESIGN.

Vista™

Ultimate Technology.
Ultimate Performance.
Ultimate Design.

You are invited to attend the VIP world premiere of the new MartinLogan Vista electrostatic loudspeaker.

Incorporating ultra-high-resolution XStat™ and AirFrame™ technologies originally developed for the Summit speaker, Vista is capable of an exceptionally dynamic and realistic performance. An aluminum cone woofer, super-dense compact cabinet, ETC™ spikes, and bi-wirable toolless binding posts further reinforce Vista's high-end pedigree. The result? A stellar performer at an exceptional price with unparalleled sonic purity, precision, clarity, and openness.

MartinLogan
2101 Delaware
Lawrence, KS 66046
