New Lord Shimmy Dampener  
Wheel pants, wing tips and spinner freshly painted  
Belly Strobe

**Engine**

All logs  
Oil analysis since 2015

Mags overhauled last annual  
New spark plugs

This is a great airplane. It is a very stable IFR plane with everything needed for IFR. The 530W and GPSS make flying approaches easy. This plane is ready to fly and needs nothing. Engine runs strong. Compressions in upper 70's last annual.
