

## ACHY BREAKY BALM TESTIMONIALS

**Elizabeth Groner Hill, Business Owner ~ New Orleans, LA** I love the non-greasy feel. I was only able to reach a certain part of my lower back, not the whole area that was giving me pain. The part I used the Achy Breaky on feels 100% better than the part I couldn't reach. You'd think with two men in this house, I could find SOMEONE to apply it to my entire back, wouldn't you?

**Amanda ~** "Your Achy Breaky Balm has helped me greatly with the pain from my recent knee injuries and subsequent painful physical therapy. I've got it on before or after my exercises and the cooling relief is almost instantaneous. As soon as this one is empty I'll be emailing you to order more! My knees (and my puppies who need our runs) are thanking you!"

**Patty Street, 41, Lynnville, TN** Zany, you must really study your healing EOs and additives. It is nice to find something that works & doesn't have to be artificial or toxic to get the job done. It is something I will keep on hand in case of flair ups with my wrist or with any other joint aches. I will also give it a try on dry areas now that I know it works on those as well. Thank you again. Your cape is being made for your super hero status!

**"Mango Moon" ~ Guinea Person (Tester)**

For a joint relief product it had a very pleasing aroma that didn't make you think medicine; nice, smooth; soothing and easy to apply. Melted right onto the skin; I gave it a run for it's qualities and it still won out.

You've got a gold mine there, girl! I can't remember the last time I felt this pain free!

**"Sweet Cheeks" ~ Business Owner , Lakewood, CO** Zany's Achy Breaky Balm does wonders for me. I have been having trouble with my elbow, I rub a little on and the pain does go away. I've paid \$6 for something like this in the past that DIDN'T work. THIS WORKS! I think you should sell it for \$10. It's worth it. Laurie

Im a perfect candidate with what I've been going thru with my hands... yes as I type... I don't give up... I get more pain in the outside of my arm below my elbow... that big muscle right there... I think the cubital tunnel is probably what acts up the most, or they missed the mark... either way that balm is going on any hint of pain anywhere there... Im leaving this tube right here next to the computer...

Zany, thank you for the Achy Breaky Balm!! This will be with me wherever I go as I have been having problems with the middle finger on my right hand. I'm hoping it's just strained from work and not the "A" word setting in!! Anyhoo, that finger aches really bad and lately it's been difficult for me to lift a heavy object or put too much pressure on it. I've already massaged some of the balm in and I like the fragrance and how it's not greasy or messy at all. I'm also able to bend it right now with no pain.
